#### Note:

- Empanelled PHIs should upload basic investigations conducted in each patient - routine investigations like haematology, bio-chemical, histopathological, micro biological, radiological films and reports and USG reports for arriving at the diagnosis and clinical notes, provisional diagnosis, planned treatment procedure, and the code selected from the procedure list mandatorily for auto-preauthorization
- Procedures mentioned as cross speciality can be done by specialities under which they have been included in addition to the main speciality.
- Codes mentioned as \* are sub procedures which are a part of the main procedure. Case specific procedure to be selected accordingly and cannot be clubbed with the main procedure.
