# Rashtriya Bal Swasthya Karyakrama (RBSK)

Karnataka has implemented RBSK Rashtriya Bal Swasthya Karyakrama (RBSK) programme from 2013-14 as Comprehensive child health care, which implies assurance of extensive health services for all children, from birth to 19 years of age, for a set of health conditions. These conditions are Diseases, Deficiencies, Disability and Developmental delays - 4 Ds. Universal screening would lead to early detection of medical conditions, timely intervention, ultimately leading to a reduction in mortality, morbidity and life-long disability. It is important to note that the 0-6 years age group will be specifically managed at DEIC (District early intervention centers) level while for 6-18 years age group, management of conditions will be done through existing public health facilities. DEIC will act as referral linkages for both the age groups.

Outreach screening will be done by 10 dedicated mobile block level teams for the period of 6 weeks to 6 years at Anganwadi centers and for children in the age group of 6-18 years, at School. There are 5 blocks, each block has two teams with mobility support.

Once the child is screened and referred, from any of these points of identification, it would be ensured that the necessary treatment/intervention is delivered at zero cost.

# National Ambulance Services

- Janani Suraksha Vahini Ambulances
- Nagu-Magu Ambulances
- Arogya Kavacha-108 Ambulances

# Janani Suraksha Vahini:

Under this scheme two drivers are appointed in addition to one regular driver to provide 24 x7 services in all 6 FRU'S of the District.

# **MCH REFERAL AMBULANCE (NAGU MAGU) :**
